GMT modern movements in architecture by pdf - Modern architecture emerged at the end of the 19th century from revolutions in technology, engineering and building materials, and from a desire to break away from historical architectural styles and to invent something that was purely functional and new.

Modern architecture - Wikipedia - Postmodern architecture is a style or movement which emerged in the 1960s as a reaction against the austerity, formality, and lack of variety of modern architecture, particularly in the international style advocated by Le Corbusier and Ludwig Mies van der Rohe. The movement was introduced by the architect and urban planner Denise Scott Brown and architectural theorist Robert Venturi in their ...
